only **\$999**

Meet the fastest, most powerful MacBook yet. It now features next-generation NVIDIA GeForce 320M graphics, a 2.4GHz Intel Core 2 Duo processor, and 2GB of memory. That means MacBook can handle everything from surfing the web to the most graphically intense 3D games with ease. It also features up to 10 hours of battery life and a glass Multi-Touch trackpad that supports inertial scrolling, right-clicking, and Multi-Touch gestures. All in a streamlined, durable unibody enclosure.

CRYWOLF

Next-generation NVIDIA graphics.

New, high-performance NVIDIA graphics bring more speed and efficiency to just about everything you do on a MacBook.

Long-lasting 10-hour battery.

The built-in battery now lasts up to 10 hours on a single charge. So you can stay online and unplugged for longer than ever.

Glass Multi-Touch trackpad.

The spacious trackpad gives you plenty of room to navigate, use Multi-Touch gestures, and move up and down pages smoothly with inertial scrolling.

Durable unibody enclosure.

Just 1.08 inches thin and weighing only 4.7 pounds, MacBook features a sleek and durable unibody enclosure that slips easily into your bag or backpack.

2.4GHz: 250GB
