

Apple MacBook Air®

The new, faster MacBook Air.

Everyone should have a notebook this advanced.
And now everyone can.

The new MacBook Air is up to 2.5x faster than before.¹ It features the latest Intel Core processors, high-speed Thunderbolt I/O, a backlit keyboard, and OS X Lion. All this, and it's still incredibly thin and light. Which makes it the ultimate do-everything, take-everywhere notebook.

Key Features

- Next-generation dual-core Intel processors
- High-speed Thunderbolt I/O
- Full-size, backlit keyboard
- All-flash storage
- Thin, light, durable design
- High-resolution displays
- OS X Lion

Custom Configuration Options

- Processor up to 1.8GHz Dual-Core Intel Core i7
- External MacBook Air SuperDrive
- Apple Thunderbolt Display
- USB Ethernet Adapter
- Mini DisplayPort to DVI Adapter
- MagSafe Airline Adapter
