

Apple iMac®

The ultimate all-in-one goes all out.

The new iMac features next-generation quad-core processors and the fastest graphics ever in an all-in-one computer. It also brings Thunderbolt I/O technology to the desktop for lightning-fast data transfer. A new FaceTime HD camera lets you make full-screen HD video calls.*

All from a beautiful widescreen LED-backlit display that takes up just a sliver of your desk. And now the new iMac comes standard with OS X Lion, the latest release of the world's most advanced desktop operating system.

Key Features

- Quad-core Intel Core i5 processors across the line
- All-new, next-generation AMD Radeon HD graphics processors
- Thunderbolt port on every model (two Thunderbolt ports on 27-inch model)
- FaceTime HD camera
- OS X Lion
